

TO: YAMBA ABAANA USA
CC: SCHOOL COORDINATOR
FROM: YAMBA ABAANA USA REPRESENTATIVE
SUBJECT: TERM 3 BEGINNING OF TERM REPORT
DATE: 4TH OCTOBER 2019

1. INTRODUCTION:

We are grateful to God who has kept us alive and health up to this time. We are extremely happy that term 3 has started so well and all the students are happy to be back in school. All the department heads and the general staff are executing their roles for the betterment of the children. Below are some of the highlights so far recorded;

2. HIGHLIGHTS

85% of all the children were able to report on the first day of the term. We thank the parents who worked tirelessly to ensure that all these children reported back to school.

It was unfortunate that one of our sponsored student by the names Hakibaro Ikondere lost his father towards the end of last term. A lot of thanks to his sponsors who sent him the condolence messages after hearing the bad news.

All the staff have reported back to duty and they are busy with their work.

All the children are now back to school and working harder this being a promotional term. The children have been briefed about the different events that will take place this term

Both students and staff members were excited for the new safe drinking water solution. No one would believe how this water purification system operate. Through this some students would ask funny questions like; **“Are we going to be taking this water when it is hot because we are seeing electricity on?” Rebecca Asked.** We explained to Rebecca and other students with similar questions how this electricity is for purifying water. We are all very happy and enjoying our safe drinking water now. A lot of thanks to Yamba Abaana US for thinking about us always and getting this water to us. We are proud to inform you that our school is only school with this water purification system in the whole Rubanda district. May God richly bless you we pray.

All the children in secondary have also reported back to school and are studying well.

Below are some of the photo moments in the beginning of term 3;

The photo above shows the children getting drinking water from the new water system

3. CHALLENGES:

There were a few children who reported late because they did not have some of the school requirements.

4. CONCLUSION:

We thank God so much for the wonderful term he has enabled us to start and we are very much hopeful that he will see us through. We request that all stakeholders keep us in prayers and all the children so that God grants them good health and knowledge to excel in their studies and be promoted to another class. We as well request for the necessary support from all stakeholders so that we have a successful term. May God richly bless you.
